6th Grade

ANDREW DAI

Andrew joined Storming Robots in 6th grade and remained with us through 11th grade. During his high school years, he competed in RoboCupJunior (RCJ) Rescue Simulation. In 2024 he won **the 1st Place** at the International RCJ Rescue Simulation Competition—an algorithmically intensive, AI-oriented competition.

Admitted to Princeton University, Class of 2030
Majoring in Computer Science

— Email from Andrew on January 19th, 2026

Dear Mrs. Mabrey, Dennis, Jeremy, and all,

I cannot overstate how much Storming Robots has helped me grow as an engineer. Like many of the students here, I began without even a grasp of the basics. Pretty much everything I know about programming came from my teachers, my classmates, and the wonderful teammates I competed with. But SR did far more than just teach me technical concepts–you taught me how to learn and synthesize knowledge, and how to grow independently as an engineer.

Storming Robots also nurtured my curiosity, pushing me to embrace harder problems rather than shy away from them, and to see challenges as opportunities to grow. I'm really grateful to all of you, for giving me the drive to learn and the confidence to improve. I hope to stay connected and see you all again even after I finish high school and head to college to study computer science and engineering.

Sincerely,
Andrew
